Geotimes Managing Editor to be at AGU Fall Meeting Exhibition

Alexandria, VA – Megan Sever, Managing Editor for *Geotimes* magazine, will be at the American Geological Institute (AGI) booth at the AGU Fall Meeting Exhibition to answer your questions and hear your story ideas.

Come to booth number 239 in Moscone South on Wednesday, Dec. 12 between 11:30 a.m. and 12:30 p.m. to meet Megan. She will be on hand to answer your questions about previous stories and issues, plans for the magazine's future, and any other topics you may want to discuss. You may also send any questions or story ideas to Megan at kms@agiweb.org.

Geotimes, published by the American Geological Institute is the popular voice of the earth sciences. Each month, the magazine offers clear and engaging articles about the earth, energy and the environment — topics for readers interested in understanding the science of the planet and its impact on society. To learn more about the magazine visit <http://www.geotimes.org/current>.

The American Geological Institute is a nonprofit federation of 44 geoscientific and professional associations that represents more than 120,000 geologists, geophysicists and other earth scientists. Founded in 1948, AGI provides information services to geoscientists, serves as a voice of shared interests in the profession, plays a major role in strengthening geoscience education, and strives to increase public awareness of the vital role the geosciences play in society's use of resources, resiliency to natural hazards, and interaction with the environment.
